

**Estabrook Learning Community Curriculum Guide 2017-2018**

<b>Curriculum</b>	<b>Subject</b>	<b>Description</b>	<b>Grades</b>	<b>Implementation Year</b>
<b>Everyday Math</b>	Math	This program is designed to help engage students in math. The program uses strategies that allow students to revisit concepts throughout the year. The approach gives a spiral of important concepts. Each concept is revisited and practiced again.	2-5	2015-2016
<b>Words Their Way</b>	Spelling	An individualized spelling program. This helps teachers to differentiate students spelling, based on their individual needs.	2-5	2015-2016
<b>Maisa</b>	Reading	A reading program that scaffolds reading instruction. There is a structured lesson created for each day of the week.	2-5	2014-2015
<b>Maisa</b>	Writing	A writing program that	2-5	2014-2015

		allows students to strengthen their skills as writers. The program uses strategies that allow students to improve each piece of writing they create. It also has daily lessons focused on students growth and success.		
<b>Scholastic: Guided Reading</b>	Reading	A small group program that is designed to help students grow as readers. This allows teachers, and students to work on lessons at each student's instructional reading level. This means that students are able to read a text with help. Students are placed into smaller groups with students who are on the same level.	2-5	2016-2017
<b>Fossweb</b>	Science.	Elementary science is a new addition to our	2-5	2017-2018

		<p>Unified Arts program at Estabrook. Students attend science 1x per week for investigations and hands-on learning opportunities. Classroom teachers follow-up with the science lessons in their classrooms using science journals, informational readings, and informational videos.</p>
